

Job Description – PMO

Location: Chennai / Work from Office

Experience: Fresher

Employment Type: Full-Time

About OJ Commerce:

OJ Commerce (OJC), a rapidly expanding and profitable online retailer, is headquartered in Florida, USA, with a fully-functional office in Chennai, India. We deliver exceptional value to our customers by harnessing cutting-edge technology, fostering innovation, and establishing strategic brand partnerships to enable a seamless, enjoyable shopping experience featuring high-quality products at unbeatable prices. Our advanced, data-driven system streamlines operations with minimal human intervention.

Our extensive product portfolio encompasses over a million SKUs and more than 2,500 brands across eight primary categories. With a robust presence on major platforms such as Amazon, Walmart, Wayfair, Home Depot, and eBay, we directly serve consumers in the United States.

As we continue to forge new partner relationships, our flagship website, www.ojcommerce.com, has rapidly emerged as a top-performing e-commerce channel, catering to millions of customers annually.

Role Summary

We are looking for a highly organized and detail-oriented **fresher** to support project planning, tracking, reporting, and coordination activities across multiple teams. This role is ideal for fresh graduates who are interested in project management, business operations, process improvement, and stakeholder coordination.

The PMO Associate will work closely with various functional teams, and leadership to ensure projects are tracked effectively and delivered on time.

Key Responsibilities

Project Coordination

- Assist project managers in planning, tracking, and monitoring project activities.
- Maintain project schedules, trackers, and documentation.
- Follow up with stakeholders on project updates and action items.
- Support project status reviews and governance meetings.

Reporting & Analytics

- Prepare daily, weekly, and monthly project reports.
- Update project dashboards and MIS reports.
- Track key project metrics, timelines, dependencies, and risks.

- Analyze project data and highlight potential delays or bottlenecks.

Documentation & Process Management

- Maintain project artifacts, meeting minutes, and documentation repositories.
- Create and update SOPs, process documents, and templates.
- Ensure adherence to project management standards and processes.

Stakeholder Management

- Coordinate with cross-functional teams to collect project updates.
- Facilitate communication between project teams and management.
- Schedule project meetings and capture action items.

Skills & Competencies

Required

- Proficiency in MS Excel. Comfortable with formulas, pivot tables, and basic charts for trackers and reports
- Working knowledge of MS PowerPoint for preparing status reports and leadership presentations
- Strong written and verbal communication skills
- High attention to detail and accuracy in documentation and reporting
- Analytical and problem-solving ability, able to interpret project data and flag risks or delays
- Good organizational and time-management skills, with the ability to handle multiple tasks and follow-ups
- A proactive, ownership-driven attitude and willingness to learn

Good to Have

- Exposure to project management tools such as MS Project, Jira, or Smartsheet
- Basic understanding of project management concepts or methodologies.
- Familiarity with dashboards or MIS reporting tools
- Any internship, academic project, or coursework involving coordination, reporting, or data analysis

What we Offer

- Competitive salary
- Medical Benefits/Accident Cover
- Flexi Office Working Hours
- Fast paced start up
